

A Transitional Care Centre in **YOUR** Neighbourhood

Located in Caledon Village, the Transitional Care Centre helps you get back on your feet again when an illness or injury has taken its toll.

This program is right for you if:

- you, or a loved one, is in need of care and are 55+
- you require special care but not admittance to a hospital OR you are discharged from the hospital but are not quite ready to be at home on your own.

The Transitional Care Centre provides around-the-clock attention for short periods of time, from a few days to a few weeks.
